Contents

NUMBER 1 JANUARY 1992

Review article

1 Causes and mechanisms of breathlessness
O. Nisell

Original communications

19 Acute intracranial hypertension and basilar artery flow recorded by transcranial Doppler sonography
J. M. de Bray, J. L. Saumet, G. Leftheriotis, M. Berson and L. Pourcelot

29 Cholesterol metabolism in distance runners
W. H. F. Sutherland, E. R. Nye, D. J. Macfarlane, S. A. Williamson and M. C. Robertson

39 Effect of acute acidosis and alkalosis on leucine kinetics in man
E. Straumann, U. Keller, D. Küry, D. Bloesch, A. Thélin and M. J. Arnaud

53 Correlation between computer-assisted femoral arteriography and physiological tests in hypercholesterolamic patients. A methodological study with special reference to clinical trials
S. Nilsson, L. Kaijser, U. Erikson, J. Johansson and G. Walldius

69 Oscillatory contractions in vertebral arteries from hypertensive subjects
R. C. Webb, K. E. Schreur and S. M. Papadoupoulos

79 Effects of experimental potassium depletion on renal function and urinary prostanoid excretion in normal women during moderate antidiuresis
G. C. Agnoli, R. Borgatti, M. Cacciari, C. Garutti, E. Ikonomu, P. Lenzi and M. Marinelli

95 Haemodynamic and neurohumoral effects of cold pressor test in severe heart failure
A. Westheim, I. Os, E. Thaulow, S. E. Kjeldsen, J. Eritsland and I. K. Eide

107 Formation of prostacyclin during administration of β_1-selective and nonselective β-adrenergic antagonists in healthy humans
Å. Wennmalm

117 Reference values for bicycle exercise tests in patients with various degrees of ischaemic heart disease
F. Frandsen, C. Andersen, H. C. Larsen and H. Oxhøj

125 Instructions to authors

127 Author Index: Volume 11

Volume contents: Volume 11

NUMBER 2 MARCH 1992

Original communications

135 Muscular strength in idiopathic haemihypertrophy
N. Maffulli, J. A. Fixsen and A. M. Jackson

145 Splanchnic and renal vasoconstriction during neuropeptide Y in healthy humans
G. Ahlborg, E. Weitzberg and J. M. Lundberg

155 Assessment of blood pressures and gradients by automated blood pressure device compared to invasive measurements in patients previously operated on for coarctation of the aorta
H. Wendel, D. Teien, D. G. Human and M. A. Nanton

163 Free amino acids in plasma and muscle during 24 hours post-operatively—a descriptive study
P. Essen, J. Wernerman, T. Sonnenfeld, S. Thunell and E. Vinnars

179 Renal vein oxygen saturation in renal artery stenosis
K. Nielsen, M. Rehling and J. H. Henriksen

185 Plasma concentrations of atrial peptides ANF(1–98) and ANF (99–126) after intravenous infusion: effect of infusate temperature
C. Hall, S. Tølløfsrud, C.-E. Bjerkelund, H. Noddeland and J. Sundsfjord

195 Detection of microvascular impairment in type I diabetics by laser Doppler flowmetry
S. B. Wilson, P. E. Jennings and J. J. F. Belch

209 Ischaemic heart disease and the changes in the QRS and ST segments during exercise: a pilot study with a novel vectorcardiographic system
M. Pilhall, M. Riha and S. Jern

Short communication

225 Cardiovascular reflex tests and the resting heart rate at night and during testing
S. J. Piha

Technical note

229 Non-invasive vs. invasive beat-to-beat monitoring of blood pressure
A. Gabriel, L. E. Lindblad and C. Angleryd

237 Erratum

239 Instructions to authors

NUMBER 3 MAY 1992

Original communications

241 The laser Doppler analysis of posturally induced changes in skin blood flow at elevated temperatures
M. S. Rendell, M. Giitter, O. Bamesendun, K. Davenport and R. Schultz

253 Assessment of the composition of major body regions by dual-energy X-ray absorptiometry (DEXA), with special reference to limb muscle mass
N. J. Fuller, M. A. Laskey and M. Elia

267 Presyncope caused by central hypovolaemia is not preceded by evoked potential alterations
J. T. Lightfoot, N. Thakor, S. Biswijit and D. F. Hanley

277 Ambulatory strain-gauge plethysmography and blood volume scintimetry for quantitative assessment of venous insufficiency
J. R. Struckmann, S. Fløistrup Vissing and E. Hjortsø

287 Short-term starvation decreases skeletal muscle protein synthesis rate in man
P. Essén, M. A. McNurlan, J. Wernerman, E. Milne, E. Vinnars and P. J. Garlick

The 9th Scandinavian Congress of Clinical Physiology

303 Evaluation of non-respiratory function of the human lung by HIPDM lung scanning
M. Miniati, F. Cocci, A. Paci, L. Gani and M. Pistolesi

313 Recent developments in computer analysis of ECG's
P. W. Macfarlane

319 Late potentials—a clinical update
C. Blomström-Lundqvist

325 Biomagnetic multi-channel systems. Principles and application in cardiology
H. Reichenberger, S. Schneider, W. Moshage and P. Weismüller

335 Abstracts

The 1991 Spring Meeting of the Swedish Society for Clinical Physiology

381 Abstracts

397 Instructions to authors

NUMBER 4 JULY 1992

Original communications

399 Ineffective ventilation during exercise in patients with chronic congestive heart failures
A. R. A. Sovijärvi, H. Näveri and H. Leinonen

409 Effects of sulphur hexafluoride on psychomotor performance
A. Östlund, A. Sporrong, D. Linnarsson and F. Lind

419 The creatine kinase system in the serum of runners following a doubling of training mileage
F. S. Apple

425 Redistribution of skin blood flow during leg dependency in peripheral arterial occlusive disease
A. Scheffler, J. Jendryssek and H. Rieger

439 Sham-feeding decreases cardiac output in normal subjects
H. B. Andersen, E. W. Jensen, S. Madsbad, S. L. Nielsen, F. Burcharth and N. J. Christensen

443 Longitudinal systolic shortening of the left ventricle: an echocardiographic study in subjects with and without preserved global function
M. Alam, C. Höglund and C. Thorstrand

453 Subtraction of extra-renal background in ^{99m}Tc-DTPA renography: comparison of various regions of interest
M. Moonen and G. Granerus

463 Testing arterial baroreflex function in acutely unwell patients
I. D. Anderson and R. A. Little

475 Does diffuse coronary atherosclerosis affect the relation between coronary stenoses and uptake of Thallium-201 after exercise?
C.-G. Ericsson, L. Erhardt, A. Hamsten, L. Mesko, A. Szamosi, S. Zetterquist and U. de Faire

487 Is the high lactate release during arm exercise due to a low training status?
M. Jensen-Urstad and G. Ahlborg

Short Communication

497 Non-invasive assessment of vessel-wall changes in hypertensives and normotensive controls
C. Lemne, T. Jorgestrand and U. de Faire

503 Instructions to authors

NUMBER 5 SEPTEMBER 1992

Review article

505 Gravitational stress and volume regulation
P. Norsk

Original communications

527 Changes in autonomic cardiovascular control in mid-pregnancy
E. M. K. Ekholm, R. U. Erkkola, S. J. Piha, J. O. Jalonen, T. H. Metsälä and K. J. Antila

537 Critical evaluation of the 'heated-hand-technique' for obtaining 'arterialized' venous blood: incomplete arterialization and alterations in glucagon responses
M. A. Nauck, H. Ließ, E. G. Siegel, P. D. Niedmann and W. Creutzfeldt

553 Exercise echocardiography: a methodological study comparing peak-exercise and post-exercise image information
P. Blomstrand, J. Engvall, J. E. Karlsson, A. Björkholm, L. Wallentin and B. Wranne

567 Dependence of maximum performance time on work intensity in patients with a hereditary myopathy with succinate dehydrogenase deficiency
H. Linderholm

575 Distribution of radioactive aerosol in the airways of children and adolescents with bronchial hyper-responsiveness
V. Backer and J. Mortensen

587 Pulmonary clearance of ^{99m}Tc-DTPA and ^{99m}Tc-albumin in rabbits with surfactant dysfunction and lung injury
K. Nilsson and P. Wollmer

Technical note

595 Miniature silicon diode Matrix-detector for *in vivo* measurement of ^{111}Xenon disappearance in the canine myocardium following local tissue injection
J. H. Svendsen, H. B. Rasmussen, Y. Damgaard, J. Bojsen and S. Haunsø

NUMBER 6 NOVEMBER 1992

Original communications

607 Early exercise thallium-201 single photon emission computed tomography in unstable angina: a prospective study
A. Amanullah, S. Bevegård, K. Lindvall and E. Herlitz

619 Use of non-invasive finger blood pressure monitoring in the estimation of aortic pressure at rest and during the Mueller manoeuvre
J. Virolainen

629 Thigh composition in young and elderly men determined by computed tomography
T. J. Overend, D. A. Cunningham, D. H. Paterson and M. S. Lefcoe

641 Indirect pathway of liver glycogen synthesis in humans is predominant and independent of beta-adrenergic mechanisms
F. Napoli, B. Capaldo, A. Picardi, F. Piscione, M. C. Bigazzi, C. D'Ascia and L. Saccà

653 Plasma endothelin-1 during central hypovolaemia in man
S. Matzen, C. Emmeluth, M. C. Milliken and N. H. Secher

659 Heart rate during haemorrhagic shock
J. Jacobsen and N. H. Secher

667 Relationship between hyperglycaemia and aerobic power in men with newly diagnosed type 2 (non insulin-dependent) diabetes
E. Vanninen, M. Uusitupa, J. Remes, O. Siitonen, J. Laitinen, E. Länsimies and D. Pyörälä

679 Myocardial reperfusion in thrombolysis A. ^{99m}Tc-Sestamibi SPECT study in patients with acute myocardial infarction
P.-Å. Boström, H. Diemer, M. Freitag, P. Juhlin, B. Lilja and L. Erhardt

685 Instructions to authors

687 Author index: Volume 12

697 Volume contents: Volume 12
